

# NAPA is looking for interns in communication for autumn 2021

**Do you want to promote Arctic perspectives throughout the Nordic region?** NAPA – The Nordic Institute in Greenland is looking for 1-2 interns for communication at our office in Katuaq. You will work in a dynamic team working with cultural exchange in Greenland, the Nordic countries, the Arctic and the Baltic countries. Our most important task is to ensure that Arctic perspectives are seen and recognized throughout the Nordic region.

In addition, we run the information service Info Norden Greenland, where citizens from all over the Nordic region can contact us with questions about moving, working, studying or traveling in Greenland.

As an intern at NAPA, you must work to make our work in the field of culture, language and identity visible – both online and at events and projects. We work versatile and fast – and here is room for new ideas and fun inventions. You can to a large extent help to shape your work tasks and working day.

**We can offer experience** with a number of communication tasks, including:

- Preparation of news articles for our own website [napa.gl](http://napa.gl) and articles about Greenland for Info Norden
- Preparation and distribution of press releases
- Answering inquiries about Greenland for Info Norden
- Updating social media, primarily facebook
- Case stories about the projects we support (both in writing, audio and video)
- Translating statistics from our cultural support program into good stories
- In addition, you can try your hand at making videos or podcasts if it interests you.

**We imagine** that you are in the process of a higher education at master's level as a journalist or in the humanities or social sciences, but we encourage everyone regardless of specific direction to apply. In addition, we expect you to:

- Be skilled in writing and speaking in Greenlandic, English and at least one Nordic language
- Have an interest in communication and telling the good story
- Be creative, curious and open to new knowledge

**It is an advantage** (but definitely not a requirement) if you have experience with:

- WordPress/Drupal or other CMS systems
- Video or audio editing

Application, CV and possibly diplomas must be received by us no later than 1 June 2021 and sent to [napa@napa.gl](mailto:napa@napa.gl) – interviews will be conducted in week 25, 21-22. June.

**Do you want to know more?** If you have any questions, please feel free to write to Malin Corlin at [malin@napa.gl](mailto:malin@napa.gl) or call +299 532573. You can read more about us at [www.napa.gl](http://www.napa.gl).
